

**TREATMENT FOR MEDICALLY
COMPLEX BEHAVIORAL PATIENTS**

REINFORCE THE REHABILITATION JOURNEY.

Nexus Children's Hospital, a specialty pediatric hospital, manages complex patients that have behavioral issues making them a challenge to be treated in the acute care setting, but also have medical issues that are preventing admission to a behavioral health facility. Working with patients who may have been unsuccessful in traditional rehabilitation environments, Nexus' patients benefit from our individualized treatment plans and home-like environment, as we focus on **mending minds.**

Standards of Care*

- » Physical therapy, occupational therapy, cognitive therapy, and speech-language pathology
- » Structured behavioral plans
- » Neuropsychiatry and neuropsychology support
- » Weekly multidisciplinary team conference
- » Secured care environment
- » 24-hour nursing
- » Parent training prior to discharge

**Services may vary between Nexus Children's Hospital Houston and Orange.*

ABOUT NEXUS HEALTH SYSTEMS

Since 1992, Nexus has reframed what rehabilitation and post-acute care should provide patients. As a leader in complex neurorehabilitation, our health system takes the entire person in view, understanding specifically what has happened neurologically to better predict challenges and create treatment strategies for long-term success. A continuum of care across multiple facilities ensures all patients receive treatment in a least restrictive environment where skills are developed, functions are increased and greater independence is gained.

As a family owned and operated health system, Nexus is different than traditional hospital and rehabilitation environments in that our facilities are family focused and home-like. Our interdisciplinary team invests in our patients' journeys, making long-lasting relationships and engaging patients in proven therapies tailored to their individual goals. Sensitive to patients' and families' needs throughout rehabilitation, Nexus is **mending minds**, and returning patients to lives of productivity and meaning.

ADMISSIONS

To refer a patient or to schedule a complimentary informational session or tour for your patient at Nexus Children's Hospital, please call the admissions office.

Families will need a physician's order/referral to proceed. All commercial insurance, private pay, and most managed and traditional Medicaid plans accepted.
