

# SERVING THE COMMUNITY

FOR OVER A QUARTER OF A CENTURY.

## RECOMMITTED TO PROVIDING CARE.

When you or a loved one is recovering from a brain injury or other severe illness, getting home and back to independence means everything — which is why choosing a nationally recognized specialty hospital in your home state will help reach that goal. Meeting the medical and rehabilitation needs of patients from across the country, Nexus Specialty Hospital, conveniently located in the wooded suburbs of north Houston, is the right next step for local post-acute services.

## Why Nexus Specialty Hospital.

**77%** of our patients progress to a residential rehabilitation program, Nexus Neurorecovery Center, or Home

**83%** of our patients are weaned from the ventilator on an average of 10 days (versus the national norm of 68%)

**60%** of our patients are enrolled with our NeuroScience team for specific neuro specialty treatment
